### DEPARTMENT: BIOTECHNOLOGY

S.No	STAKE HOLDERS	FEEDBACK	ACTION TAKEN
1	STUDENTS	New ideological syllabus which is currently useful to the present coming generation students and research work	Skill oriented, Entrepreneur and Employability paper added in the syllabus
2	TEACHERS	Internship for 15 days does not provide enough time for the student to learn (mainly in the field of life sciences). The report format for the internship too complicated - can be simplified. Similarly, plagiarism certificate for PG dissertation is not a wise idea when the college doesn't have a subscription for software.	Next academic year we planned 30 days internship for the PG students. As already discussed with the principal meeting plagiarism was not necessary to the PG project
3	ALUMNI	Value added course must provide to the students	Value added course was provided from this Academic year
4	EMPLOYERS	We need to add some manufacturer industry technologies to the curriculum	manufacturer industry technologies to the curriculum was added with the direction of BOS Members
