www.muthayammal.in

ABOUT THE COLLEGE

Founded in 1994, Muthayammal College of Arts and Science has emerged as an institution of fine learning. The basic tenets of education that govern the college are embodied in the words "education for all". In the years since its inception, thousands of rural students have been able to explore better career options and achieve high degrees of success.

The college is located on a sprawling campus that makes for a quiet learning environment. The College is Affiliated to Periyar University, Salem, Accredited by NAAC with 'A' grade, Recognized by UGC Under Section 2(f) & 12(B). It is an Autonomous self financing co-educational institution and offers a total of 17 Undergraduate, 10 Post Graduate, 8-M.Phil and 5 Ph.D Research Programmes in Various disciplines. A proactive management and a team of highly dedicated faculty ensure that learning at Muthayammal Institutions is a difference. Importance is placed on all round development and students are encouraged to pursue creative interests. The college is ranked 125th top 186 science colleges in India by India Today Ranking(MDRA).

Theme of the Seminar

THEME

The education sector in India is on the verge of significant growth in the years ahead, as India will have the largest tertiary age population in the world and second largest graduate talent pool in the world by the end of 2030. However, the industry is not so convinced of the job readiness of graduates and that graduates do not come forward to create startups.

The quality of higher education is more important because it builds our young minds and strengthens our country on the economic front. There are two components to quality: first, "improving individual learners; improving learners' attributes, knowledge, ability, skills and potential. 'Second, "improving the quality of an institution or a program of study.

OBJECTIVES

- ★ To Understand the all seven criteria of the NAAC accreditation process.
- ★ To explain about the provisional Accreditation process.
- ★ To prepare about the AQAR process.
- ★ To prepare about the SSR.
- ★ To Enrich the curriculum based on current and future technology.
- ★ To Emphasis on skill-based education.
- ★ To implement new teaching pedagogy for the blended learning mode.
- ★ To upgrade the Research and Development .
- ★ To implement ICT tools to upgrade the students' level.
- ★ To provide the best students learning environment.
- ★ To improve the quality of teachers.

Thus, the higher education institution should make periodic reforms on curriculum design and development, Teaching, learning process and Research and development. NAAC plays a major role in higher education for quality sustenance and improvement through the assessment and accreditation process.

All higher education institutions should go for NAAC accreditation to identify the area which they need to strengthen and maintain quality. As well, NAAC introduced provisional accreditation for colleges. This is another opportunity for the Higher Education Institute to assess the quality of education.

SUB THEMES

Our nation is a collection of heterogeneous groups. Every region of our nation has to build their society by improving the quality education. The teacher is the builders of our nation. If the teachers are excellent the nation will have the excellent citizens as well as a teacher is a key component in quality education.

The NAAC accreditation system is playing the vital role to maintain the quality at national level. Besides, NAAC accreditation is a kind of criteria for the campus recruitment process. Responsibility of Higher education is to give quality education and prepare the students to meet the global standard due to globalization.

So, All the higher education institutions have to understand the uniform implementation of all seven criteria on the institutional level through this seminar.

- Online A & A methodology in Revised Accreditation Framework
- Curricular Aspect
- Teaching, Learning and Evaluation
- Research Innovation and Extensions
- Infrastructure and Learning Resources
- Students support and Progression
- Governanace Leadership and Management
- Institutional Values and Best Practices

EXPECTED OUTCOME

The participants will understand the importance of curriculum design and development. The participants may learn the recent teaching pedagogy. The participants will understand the importance of upgrading the infrastructure. The recent development followed by the institutions will be shared with the participants by the famous experts. The participants will understand the issues and challenges in Higher education. The participant will understand NAAC Accreditation and Provisional Accreditation process.
